## “Quick drop-off” by Lufthansa Cargo

### Fast acceptance of “PreCheck success” shipments

Lufthansa Cargo offers the new eService function “Quick drop-off” to **accelerate acceptance processes** of eAWB shipments.

With Quick drop-off, all shipments data and truck and driver details can be assigned ahead of the delivery. Quick drop-off generates an export shipment list that allows an **easier and quicker freight acceptance** at selected stations.

Prerequisite for Quick drop-off usage is an **active participation in PreCheck procedures**. Within this early documentary “PreCheck”, Lufthansa Cargo validates your electronic shipment data (AWB-/ HAWB-data) in a multi-level documentary check immediately after transmission.

### Your Quick drop-off benefit

- **Shorter or even no waiting times** at drop-off
- Ideally **no registration at Lufthansa Cargo counters** with usage of self-service terminal
- **Higher priority** for documentary handling, if acceptance at counter is necessary
- At selected stations even a „**direct to ramp**“ process is available

### Pre-conditions

- **Participate in eAWB process** and **react on PreCheck results**
- **Create “Quick drop-off”-groups** for all deliveries and make it available to driver
- Ideally, **PreCheck status** of all AWB in one group is “**success**”

More detailed information on this and further eFreight topics are available at
