## “eAWB only” – shipments with Lufthansa Cargo go digital

### The paper-AWB will be replaced by eAWB

Lufthansa Cargo supports digitization in our industry. Consignment data can already be easily transmitted electronically via messaging solutions or e.g. Lufthansa Cargo's web-based and free-of-charge “eAWB Data Capture”.

With the change to the summer flight schedule 2022, all shipments on eAWB feasible trade lanes with Lufthansa Cargo will be transported exclusively as eAWB shipments – **eAWB only**. For shipments that are not delivered as eAWB, Lufthansa Cargo applies a chargeable **“Paper-to-eAWB” (P2e)** service which enables a paper- to an eAWB shipment.

For shipments **already delivered as eAWB** the known procedure remains unchanged.

### “eAWB only” at a glance – *What's new?*

For all non-eAWB shipments on eAWB feasible trade lanes the “Paper-to-eAWB” (P2e) service is applied:

- Paper AWB is already digitized to eAWB at the time of export acceptance
- Shipment data is available electronically throughout the entire transport chain
- Paper-AWB is not transported
- Other accompanying documents are unaffected, e.g. pouch will continue to be transported
- **Paper-to-eAWB service starts on 27MAR22**
