Lufthansa Cargo
General Conditions
Belgium
Effective 30 October 2022

1. In case of delivery of a non-eAWB shipment, the "Paper-to-eAWB" (P2e) service will convert paper-AWB into electronic shipment data at local goods acceptance. The paper-AWB will not be transported as legally valid document. All other freight accompanying paper documents, e.g. pouch, remain unaffected. For shipments already delivered as eAWB, the process remains unchanged. The chargeable "Paper-to-eAWB" service replaces the former Paper AWB Fee.
2. All rates and fees published are in EURO and replace any previous publication.
3. Rates and all information published in this SRS (Standard Rate Sheet) are subject to change without prior notification.
4. Rates listed are net/net per kilogram chargeable weight excluding commissions, surcharges, taxes and fees.
5. e-capable consignments shall be booked through e-Channels only. For shipments that cannot be booked electronically, please contact your local Lufthansa Cargo office.
6. Rates are based on weight/volume ratio 1:6 (kilogram/liter). Different rates may apply for cargo with lower- and/or higher density
7. The rates shown are valid on LH, EW, OS, SN, XG and XQ routings and on our JV destinations on NH, UA and CX routings only, unless otherwise specified.
8. Rates to non-published destinations are on request only. Destinations and availability of services (td.Pro,td.Flash) are subject to change without prior notification.
9. Rates mentioned on AWB may not undercut the applicable net/net rate. B+K rates not allowed!
10. The SRS rates apply to general cargo only. For special cargo rates (e.g. dangerous goods, live animals, perishables, valuable-/vulnerable cargo, human remains, oversized pieces etc.) please refer to the appendix and/or contact your local Lufthansa Cargo Sales Team
11. For each ad hoc-rated shipment, promo or "special offer" the reference number (to be asked for upon booking) must be inserted in the AWB box "Accounting Information"
12. If top load is not possible 160cm height for LD and 244 cm for MD will always be calculated.
13. Shipments will be charged at the rate valid on the day of confirmed departure.
14. For all surcharges the date of AWB issue applies.
15. LCAG can only take invoicing disputes into consideration within a period of 6 months after the flight date. In case a dispute was made after expiration of this period, LCAG will not take the request into consideration. Every request must be accompanied by a copy of the booking confirmation.
16. The SRS is to be treated as confidential and must not be passed to third parties.
17. The conditions of carriage specified on the reverse side of the AWB apply. For e-freight business as agreed upon in the EDI agreement.
18. Embargoes or restriction to any destination have to be checked prior to booking.
19. The exclusive place of jurisdiction is Frankfurt/Main, Germany. The law of the Federal Republic of Germany applies exclusively, without reference to the choice of law provisions thereof (to be adapted only if required by local law).
20. Lufthansa Cargo disclaims any liability for typing errors or misprints.
