Manual Entry and Electronic Transmission of HAWB Data

Lufthansa Cargo needs HAWB data for all consolidated shipment worldwide to comply with national and international laws, and regulations.

Lufthansa Cargo will enter these data itself if it is only available in hard-copy form (HAWB, HAWB manifest).

1. Electronic data transmission using FHL messages via an EDI provider*

For HAWB data sent to Lufthansa Cargo using this method, Lufthansa Cargo will invoice a fee of **EUR 1.00** per HAWB (or the corresponding amount in local currency). This will continue to be itemized as a total charge on the master air waybill under "Other Charges" using charge code "CG." For all HAWBs with Origin North-, Central- or South America, the fee amount will be **USD / CAD 2.00.**

* Third Party **EDI provider** or via our **eServices data capture tool**
at <http://eservices.lufthansa-cargo.com/>

2. **Manual transmission of HAWB manifest or paper copies of HAWB** or manual correction of electronically entered data for manual transmission of HAWBs or manual correction of electronically entered data by Lufthansa Cargo, Lufthansa Cargo will invoice a fee of EUR 12.00 (USD 12.00 for all HAWB Origins in USA, Mexico, Central- and South America) per HAWB (or the corresponding amount in local currency) and CAD 15.00 for HAWB with origins in Canada. This will continue to be itemized as a total charge on the master Air Waybill under "Other Charges" using charge code "CC." At stations where due to the local cost structure the General Handling Agent charges a higher fee for manual capture, this fee will be applicable.

In both cases, Customers must additionally provide the following documents along with the Master air waybill (MAWB). These documents must be accessible for Lufthansa Cargo (for instance, in a separate envelope addressed to Lufthansa Cargo):

- a. HAWB manifest and/or a copy of the individual HAWBs
- b. HAWB manifest per pallet (if shipment consists of several pallets)

In case of eHM shipments no paper House Manifest must be provided by customer. Instead all FHL data must be transmitted electronically to LH Cargo. The sum of all FHL messages for all HAWB belonging to one MAWB, which are electronically submitted to Lufthansa Cargo, constitutes the electronic House Manifest (eHM) / electronic consolidation manifest/list.

Customers have to ensure that:

- all consignments with at least one HAWB carry the remark "Consolidation as per attached manifest" or "Consolidation" on the MAWB under "Nature and Quantity of Goods."
- the "Consolidated Shipment" check box in the Basic Booking Information screen (BBI) is marked in eBooking all master air waybills, HAWBs and the HAWB manifest or FHL data contain the exact description of goods as well as the addresses of both shipper and consignee along with their names, street addresses, postal codes, cities and countries.
