

Live Animals – Individual care and comfort for all animals

Temperature restriction for snub-nosed dogs

These dog breeds are susceptible to breathing problems and increased risk of heat stroke when exposed to extreme heat or stress. This restriction is also valid for mixed breeds.

The transport of the following dog breeds is only allowed, if the temperatures at **origin** and **destination** airport are **below 27°C (80°F)**:
Additional local embargoes may be in effect.

<p>Affen-Pinscher</p>		<p>Lhasa Apso</p>
